

AMB

Sostenibile e innovativo: il futuro del packaging è oggi

Salone CSR IS 2023 | Tavola rotonda 4 ottobre 2023 |

AMB | Key milestones

AMB | Business focus

PET is AMB's plastic of choice to deliver packaging applications due to its sustainability and recycling credentials. Supported by the ability to offer rPET, PE and printing options – all with SUSTAINABILITY in mind.

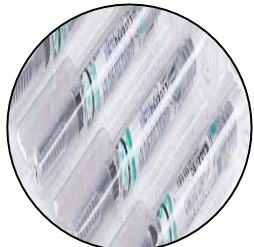

Key markets:

Food

Industrial

Medical Device

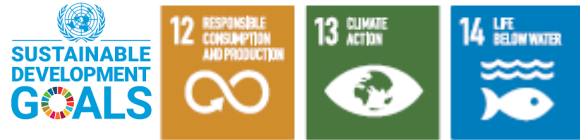

AMB | Living Sustainability

6 ESG pillars

10 Material topics

15 ESG commitments

17 Objectives to be achieved in the short, medium and long-term

The objectives also contribute to the achievements of the seven SDGs that AMB has recognized as significant for its business and in line with its strategic direction.

EPD ENVIRONMENTAL PRODUCT DECLARATION

A third party certification communication tool that enables **comparison of LCA analyses' results**. The preparation of EPD always passes through a series of rules by reference standards, more specifically the EPD general program instructions and the **Product Category Rules (PCR)**.

WHICH ARE THE EPD FUNDAMENTAL INFORMATION?

- Description of the company and the products with reference to performances
- The system boundaries considered for the analysis of the environmental impact
- A clear list of the environmental indicators used to express the impact, highlighting each cycle phases contribution to the overall impact

WWW.ENVIRONDEC.COM **EPD**

AMB | Recyclability & Circularity

Intelligent Downgauging

- Film thickness reduction
- Develop new pack geometry to enable a reduction in the film gauge

Recycled Content

- Min 30 up to 100% rPET
- 2 SSP recycling processes EFSA approved

Mono material solutions

- APET Mono high barrier without EVOH
- OPET Mono high barrier with chemical recycled content
- PE high barrier for TOP, thermoforming and flow pack applications

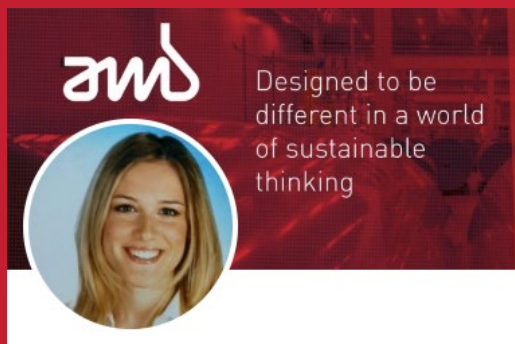

Water-Based Technology

PERCENTAGE OF PROJECTS RELATED TO SUSTAINABILITY

93%
