Easy.

The smallest 4 wheels vehicle.

Not a car. Not a scooter.

...Even shorter...

1,79m

1,80m

...than a BIKE!

A woman with long brown hair, wearing a white sleeveless dress and sunglasses, is using a hand truck to move a battery out of a small, dark-colored car with green accents. The car is parked on a cobblestone street in front of a building with a green door. The scene is brightly lit, suggesting daytime. The text "Remove and swap battery." is overlaid in white on the image.

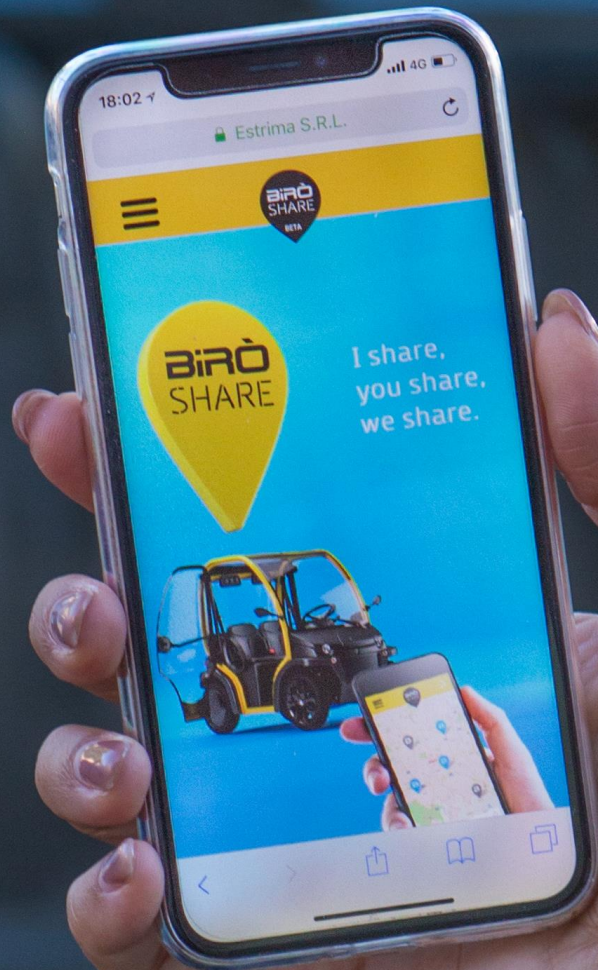

Remove and swap battery.

Strong and robust chassis.
